IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Patent Application of:
Andrew P. Dove et al.

Application No.: 09/249,597

Filed: February 12, 1999

Art Unit: 2674

For: A WEARABLE COMPUTER IN A
PROCESS CONTROL ENVIRONMENT

Examiner: X. M. Wu

TERMINAL DISCLAIMER

The undersigned is an attorney of record, and certifies that Fisher-Rosemount Systems, Inc. is the owner of 100% interest in the above-identified patent application ("this application"). That ownership is evidenced by the attached assignment, which was recorded in the U.S. Patent and Trademark Office on March 22, 1999, at reel 9836, frame 0207.

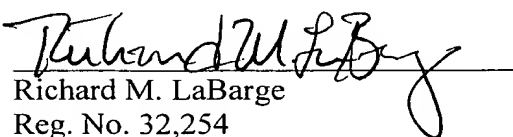

Except as provided below, the owner disclaims the terminal part of the statutory term of any patent granted on this application that would extend beyond the expiration date of the full statutory term of prior U.S. patent no. 6,806,847 ("the earlier patent"). The owner agrees that any patent that is granted on this application shall be enforceable only for and during the period that the patent is commonly owned with the earlier patent.

If the term of the earlier patent is shortened prior to the expiration of the earlier patent's full statutory term (for example, upon expiration for failure to pay a maintenance fee, upon a holding of unenforceability or invalidity, upon statutory disclaimer, upon cancellation in reexamination), the term of any patent granted on this application that would extend to the expiration date of the full statutory term is not disclaimed.

Respectfully submitted,
